Summary

I am a second-year Computer Science undergraduate at the Informatics Institute of Technology (affiliated with the University of Westminster, UK). Passionate about software development with a focus on full Stack development, I enjoy solving real-world challenges through code. I work well in teams, which helps me develop my leadership and communication skills. I aim to apply both my academic knowledge and practical experience to create meaningful solutions in the tech industry.

Education

University of Westminster BSc (Hons) in Computer Science *2023 - Present*
Ave Maria Convent Negombo

Projects

• Flickco-Website

Live : <https://www.flickco.info/>

Flickco is a modern, responsive React-based website offering innovative design and development solutions. It features a sleek, mobile-friendly interface with smooth animations powered by Framer Motion, styling from Styled Components, navigation via React Router, and icons from React Icons.

• Real-Time Event Ticketing System

[Ticketing-System](#)

Live : <https://ticketing-system-frontend-phi.vercel.app/>

A concurrent ticketing system for real-time event ticket management

Features: Multi-threaded ticket release/purchase, dynamic dashboard, transaction logging.

Tech: React, Spring Boot, OOP, Java, REST API, Periodic Polling

• Virtual Secret Santa-Ongoing

[Secret-Santa](#)

Live : <https://virtual-secret-santa.vercel.app/>

Virtual Secret Santa is a web app that automates Secret Santa gift exchanges by randomly assigning recipients while keeping matches secret. Built with React, Node.js, Express, and PostgreSQL, it ensures a seamless experience. Integrated with Nodemailer/SendGrid, it sends email notifications with recipient details, making organizing a Secret Santa event effortless and fun.

• We Neighbour App

[we-neighbour](#)

Live : <https://www.weneighbour.live/>

We Neighbour is an innovative platform designed to improve communication, enhance security, and foster community engagement in urban apartment complexes in Sri Lanka. This project is part of the CS-103 Software Development Group Project at IIT.
